IF YOU SEE THEM: Young, Unhoused, and Alone in America by Vicki Sokolik

Being released 2/13/24, *IF YOU SEE THEM: Young, Unhoused, and Alone in America* wakes us up to the issue of youth homelessness in America, through Vicki Sokolik’s own story of advocacy and through the voices of the youth themselves. The youth offer vivid accounts of the difficult circumstances they faced and their lack of support and resources. With their hard work and perseverance, and the help of Vicki’s non-profit Starting Right, Now, they were able to achieve their goals. Vicki’s grassroots action demonstrates the world-shifting power of compassion, acceptance, belonging, and self-determination, and the capacity each of us has to change our communities for the better. Described by *Booklist* as a “compelling call to action about a practically invisible population” and *Kirkus* as a “timely and truly inspiring memoir,” this new book has the ability to begin a cultural conversation—and then to effect actual change. Published by Spiegel & Grau.

STEM4Real

There's Something in the Water is a story that highlights the real life of Dr. Tyrone B. Hayes, a world-renowned scientist & endocrinologist from the University of California, Berkeley. STEM4Real believes that in order for us to increase our representation of diverse people in STEM, we must create an identity where our young people can see themselves in STEM, #4Real. This book is the first in STEM4Real's series to showcase diverse real-life pioneers in the fields of Science, Technology, Engineering and Mathematics (STEM) and empower students from all backgrounds to see themselves in a STEM profession. This book uses reading and literacy to connect students to science instruction by helping them connect their observations on what plants, animals and humans need to survive. Furthermore, this book is designed to inspire young scientists to see the relevance of STEM in their everyday lives.
